

Bona Care Program – Wood Floors

Performance beyond ordinary

Bona[®]

A Passion for Wood Floors

Wooden floors

There is nothing like wood. Bringing spaces to life, this breathing, ageing, natural living material brings warmth and beauty to any environment. But wood floors come with their own unique set of challenges based on factors such as surface finish and daily function. Whether treated with wax, oil or lacquer, each has its own unique demands, requiring a tailored maintenance routine for best results.

About Bona

With a passion for wood floors since 1919, Bona has been developing innovative and sustainable solutions, used and trusted by professional wood floor craftsmen around the world.

With a century of experience, seeing the needs for proper wood floor maintenance and care, we at Bona now offer a comprehensive care program, which offers efficiency, speed and simplicity. Do it the right way, the Bona Way.

Cleaning

Deep Cleaning

Recoating

Dedicated Maintenance Program

Bona Care Program is a unique wood floor maintenance program, created to meet the needs of every type of wood floor. From the heavy traffic of sports halls and airports, to the high standards of hotels where image is everything, it delivers outstanding performance and superior results. Bona Care provides you with everything you need, from guidance to products, enabling optimal care and maintenance with simplicity, speed and efficiency.

- ✓ For all kinds of wooden floors
- ✓ For all maintenance needs
- ✓ Simplicity and support

A Game Changer in Floor Care

Floors come with different types of challenges. From busy airport terminals and round-the-clock hotel lobbies that require a pristine appearance, to hospitals and daycare centres that demand the highest levels of hygiene, each require a tailored maintenance routine for best results. Our simple, straightforward service steps, developed by professionals for professionals, deliver simple, effective floor care that extends the life of floors and retains their original appearance for longer.

■ Cleaning – A Simple Routine

Regular cleaning is the key to a better, longer lasting floor. Bona Cleaning Treatment works effectively, without harming surfaces or the environment. Quick and straightforward with a great result, maintaining floors couldn't be easier.

Simple
and
Effective

■ Deep Cleaning – Revive and Refresh

Clean
Deep
Down

Over time and heavy wear, stubborn stains and residue build up, resulting in tired, dull surfaces. An application of Bona DeepClean W, using Bona PowerScrubber revives wooden floors. The advantage is restored freshness and appearance without the need for renovation or downtime.

■ Protecting – Bring Back The Lustre

Ready
within
Hours

Over time, repeated deep cleaning can diminish the look and quality of any surface. A new protective layer restores the original lustre and prolongs the life of floors. Safe, quick and easy, Bona's protective treatment restores floors, bringing them back to life in no time. For heavy traffic areas, Bona Protecting Treatment is recommended in conjunction with Bona Deep Cleaning.

■ Recoating – Restore with Speed and Confidence

For floors that are damaged or heavily worn, replacement is the traditional answer. The innovative Bona Recoating Treatment is a fast, effective alternative to restore their original beauty and prolong their life. From sports floors to solid wood, Bona's unique and safe recoating treatment provides the perfect surface in a matter of hours.

5 year
warranty

Bona Unique Advantages

Sustainability

- Renovation reduces environmental impact
- Improved indoor hygiene
- Lacquers are waterborne

Economy

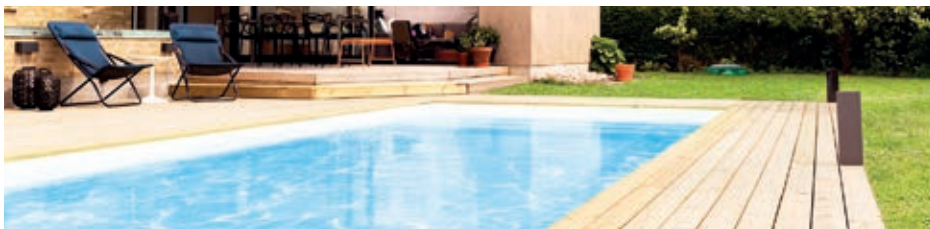

- Renovation saves time compared to installing a new floor
- Long term durability with minimal downtime

Design

- On demand look – a new colour or a clear coat
- Possibility to add line markings
- Slip resistant, hygienic and attractive surface
- Achieve high gloss or matt effects

Different Floors, Different Needs

Every floor is unique. When maintaining wooden floors, there are a number of points to consider:

Surface Treatments

Different surfaces require different treatments. Whether it is oil, wax or lacquer, each one differs in resilience and levels of care, resulting in the need for various techniques and cleaning cycles.

Traffic and Wear

Depending on the level of traffic and impact wooden floors are exposed to, specific maintenance routines are essential. Busy airport terminals require quicker cleaning and more regular attention than hotel rooms and small offices.

Sports Floors

Sports floors take a beating on a daily basis, not to mention sweat, glue and rubber residue that are all part of the sport. The Bona Sportive System is a maintenance and care program developed for the most competitive surfaces.

Outdoor Decking

With exposure to sun, rain and extreme temperatures all year round, outdoor decking requires effective cleaning with all-weather protection.

Recoating

Quick and Easy Renewal

For floors that are damaged or heavily worn, recoating is a quick, effective way to restore their original beauty and prolong their life. By following Bona's simple Recoating Treatment, the perfect surface can be achieved in a matter of hours, with ease and confidence.

Treatment involves fine sanding with Bona Diamond Abrasives for a perfectly smooth surface, followed by application of a protective coating from the Bona range of surface finishes, for outstanding durability.

Backed by our 5 year warranty

Bona's exclusive 5 year Recoating Warranty gives you the confidence to perform straightforward recoating with great results, guaranteed. Follow our simple Recoating steps for quicker, better recoating and complete peace of mind.

Steps to Recoating:

Preparation

Protection

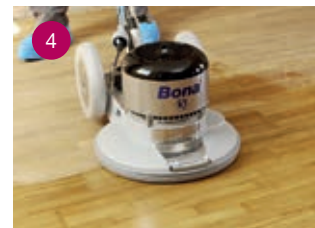

1 Clean the floor, working in a systematic, linear way

2 Superficial abrasion with Diamond Abrasives (grit 240)

3 Apply suitable Bona lacquer or Bona Hard Wax Oil

4 For oiled / hard wax oiled floors, buff using Bona FlexiSand

5 Re-protected and beautifully prepared for new challenges

Protecting

Bringing Floors Back to Life

Over time, repeated deep cleaning can diminish the look and quality of the surface. A new protective layer restores the original lustre and prolongs the life of floors. Safe, quick and easy, Bona Protecting Treatment restores floors, bringing them back to life in no time. For heavy traffic areas, Bona's Protective Treatment is recommended in conjunction with Bona Deep Cleaning.

The Bona range includes protective surface treatments to suit all floor types and finishes. From Bona oils for dry, deep cleaned oiled floors, to Bona Hard Wax Oil for restoring the shine on waxed floors, these high performance products are safe, easy to work with and provide outstanding results.

Steps to Protecting:

Preparation

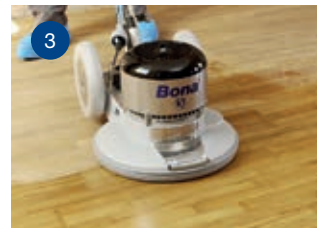

Protection

Clean the floor

Apply suitable Bona Shield W or Bona Oil Care

For oiled / hard wax oiled floors, buff using Bona FlexiSand

Floor is revived and fresh looking once again

Ready
within
Hours

Deep Cleaning

Reviving Floor Freshness

Over time, stubborn stains and residue build up, resulting in tired, dull surfaces. Bona's unique Deep Clean Treatment revives wooden floors, restoring freshness and appearance without the need for renovation or downtime.

Bona PowerScrubber scrubs deep down into the wood's fibres. When used with Bona DeepClean W for waxed and lacquered surfaces and Bona Oil Soap for oiled surfaces, this simple treatment removes the toughest dirt and scuff marks gently yet effectively. Fast, safe and easy, that's the Bona Deep Cleaning Treatment.

When deep cleaning oiled floors a new layer of protection is advised, so make sure to always follow up with the Bona Protecting Treatment.

Steps to Deep Cleaning:

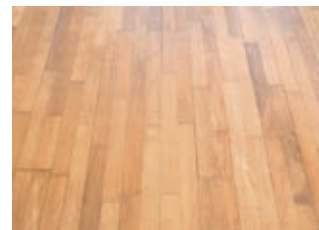

1 Ensure suitable brushes are used

2 Fill up Bona PowerScrubber with Bona DeepClean W

3 Clean the floor by covering the area in linear order

Floor is revived and fresh looking once again

Cleaning

Making Floors Happy

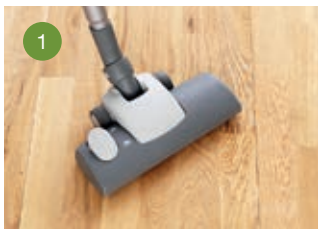

Regular cleaning is the key to a better indoor environment. Bona Cleaning Treatment works effectively, without harming surfaces or the environment. Quick and straightforward with a great result, maintaining wood floors couldn't be easier.

Bona Oil Soap provides nourishment for oiled floors, while Bona Clean W10 removes dirt from waxed and lacquered surfaces gently, yet effectively, leaving floors clean and refreshed.

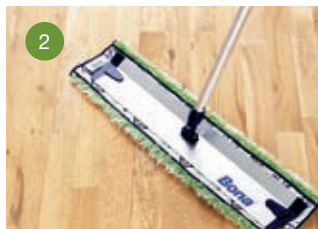

Suitable for both machine and manual cleaning, Bona Clean W10 and Bona Oil Soap provide outstanding cleaning performance without the use of harmful chemicals, making them ideal for any environment.

Steps to Cleaning:

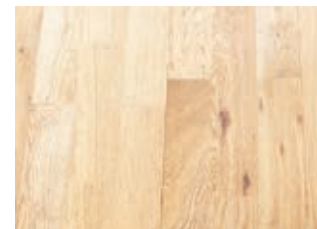

Remove loose dirt with a vacuum or bona dusting pad

To remove germs and preserve the surface, wet clean using either a mop or machine

For stubborn marks, apply the solution directly onto the affected area and scrub gently

Completely new with the desired surface, matt, glossy or coloured

For Sport Floors

Before

After

Sports Hall,
Germany

When it was time to renovate the 1000 m² sports hall, the criteria was that the project must be completed quickly and to a high standard. Following Bona's effective recoating method, the floor was match ready in just one day!

A Winning Result

When it comes to sports, a well maintained floor is as important as any other equipment for best performance. The stress and impact of the game, combined with build-up and residue all take their toll on sports surfaces.

The Bona Sportive System is a complete, easy-to-follow solution for the maintenance and renovation of wooden sports floors. FIBA approved, the Bona Sportive System is trusted by professionals around the world for unrivalled performance to meet the demands of even the toughest sports.

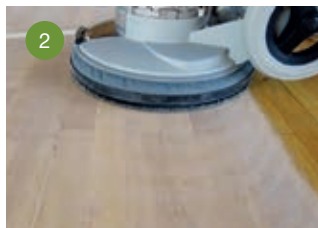

Steps for Sport Floors:

Preparation

Protection

1
Clean floor with Bona DeepClean W using Bona PowerScrubber. Let it dry

2
Abrade the surface using Bona Diamond Abrasive discs attached to the Bona FlexiSand

3
Clean the surface again with Bona PowerScrubber

4
Apply Bona Sportive Finish using a roller

5
Allow to dry and if necessary, apply a second layer

Re-protected and beautifully prepared for a new game

For the Outdoor Environment

Fast and Effective Decking Revival

Constant exposure to sunshine, heavy rain, snow and extreme temperatures all year round, takes its toll on outdoor decking. Thorough cleaning, followed by oil coating is necessary for effective weather protection, but the process takes time resulting in costly downtime.

The Bona Decking System is a fast and convenient solution. By following the unique cleaning and protecting processes of Bona's unique system, effective all-weather protection can be achieved safely and sustainably, in less than a day.

Steps to Outdoor Decking:

Preparation

Protection

1 Flush the deck with clean water from a hose

2 Ensure suitable brushes are used

3 Fill Bona PowerScrubber with Bona DeepClean W mixed with clean water (dilution 1:5)

4 Run the Bona PowerScrubber along the grain of the wood

5 Coat with Bona Decking Oil using a brush

Re-protected and beautifully prepared for new challenges

Highlight

Protecting

Restoring Oiled Floors Made Easy

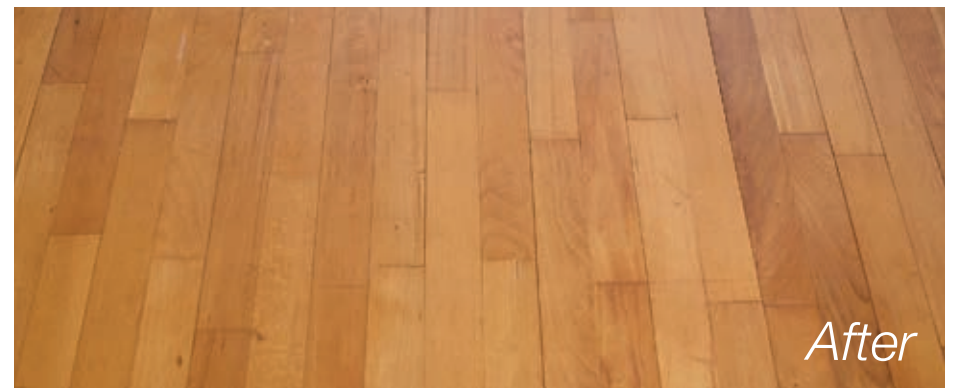

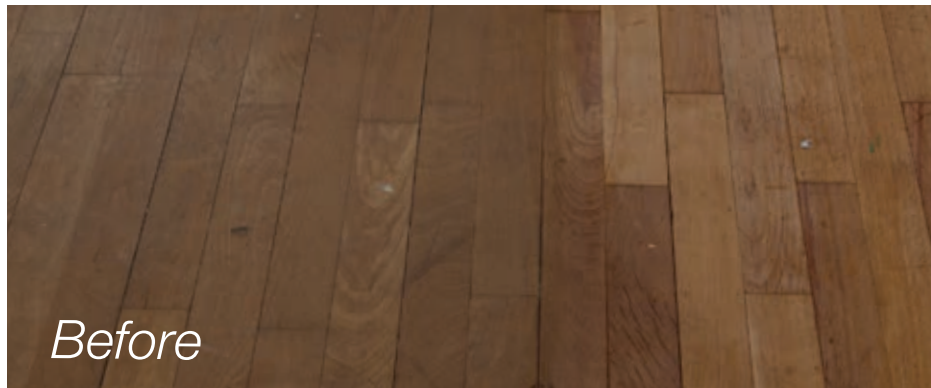

Refreshing and protecting oiled floors with Bona DeepClean W followed by Bona Oil Care - is a new, effective way of keeping floors beautiful, bringing dull wooden floors back to life in an instant.

This quick revival delivers remarkable results between floor renovations, and the floor is ready to be walked on after as little as half a working day.

Using the Bona PowerScrubber with specially formulated Bona DeepClean W, the oiled surface is effectively deep cleaned, so even the toughest dirt, grime and scuff marks are removed.

The floor is then ready for a fresh layer of Bona Oil Care, or Bona Wax Oil W, depending on the type of finish. The surface is refreshed and duly protected for new challenges, in just a matter of hours!

- ✓ Effective yet gentle deep cleaning
- ✓ Amazing floor results
- ✓ Lasting protection

Ready
within
Hours

A Unique Solution

For dull, worn floors, Bona PowerScrubber is a compact, powerful machine that works deep down, refreshing wooden surfaces. When used with the unique Bona DeepClean W, a gentle yet effective, concentrated cleaner, even the toughest dirt and grime is removed without the risk of staining the wood. Together with Bona premium oils, Bona's intensive cleaning treatment brings tired floors back to life.

Extend Floor Life with Recoating

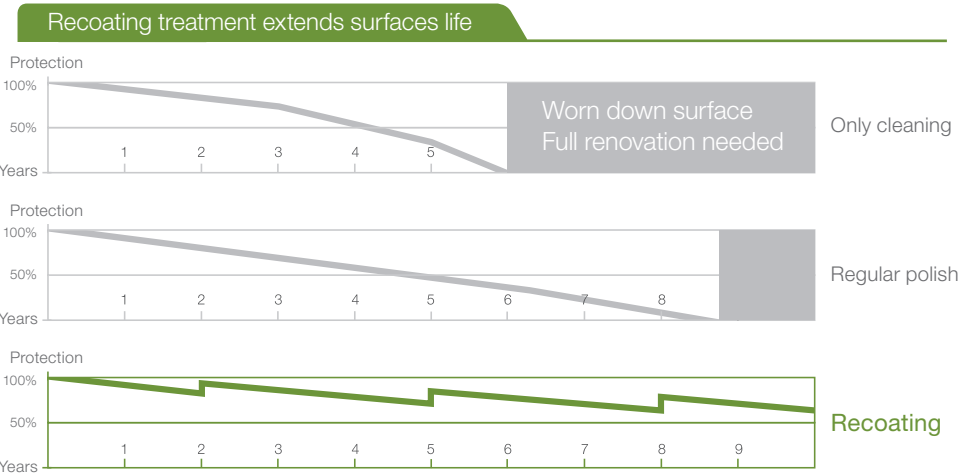

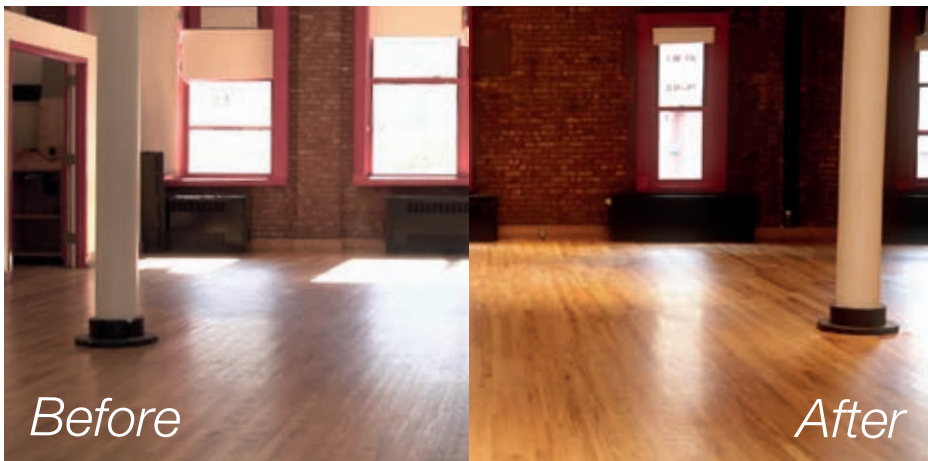

After a longer period of wear, surfaces need a special treatment to shine again. With the unique Bona Recoating Treatment you can restore the beauty and strength of a surface in a fraction of the time and effort of a full renovation.

Full renovation is an extensive project that can take between 2-4 days of downtime. This can be a big commitment of both time and money for the floor owner. However, recoating with Bona's sustainable and efficient process not only prolongs the life of the surface and leaves floors looking like new, it also increases the time between renovation, extending floor life by up to twice as long.

Because recoating can be performed in just a matter of hours, without the inconvenience of waiting between coats, it offers fantastic benefits, such as lower downtime and increased

speed and value per work hour. Best of all, Bona's recoating process is so simple that with a little training, you can achieve amazing results. Our experience shows that recoating following the Bona Recoating Treatment can incur lower lifetime costs for the floor owner, while increasing service offering and value for the contractor. The result? A win-win situation!

- ✓ Reduced downtime
- ✓ Meet the floor owner more frequently
- ✓ Healthy work environment

Ready
Overnight

- ✓ Extremely easy to operate
- ✓ Deep penetration with high solid oils
- ✓ Effective polish removal

Power To Do It All

Bona FlexiSand 1.9 is no ordinary machine. Powerful and versatile, it is equipped to take on a wide range of floor preparation jobs with speed and ease. From buffing, to sanding for recoating, Bona FlexiSand does it all. When used in conjunction with the Bona Quattro Disc and long-lasting, Bona Diamond Abrasives, you can be sure of perfect evenness and the smoothest surface. For better adhesion and a superb finish, Bona's dynamic trio makes light work of any task.

Technology That Makes it Happen

Based on our complete lifecycle approach to wood floor care, Bona offers the most comprehensive range of solutions. From machines and abrasives, to oils and lacquers, you can rely on Bona for the best possible selection of tools and products for the job, allowing you to deliver the best results with ease and confidence.
