BONA POWERSCRUBBER

**Unlimited** deep clean performance

**Bona Deep Clean System** – Powerful preparation for beautiful floors

**Bona**®

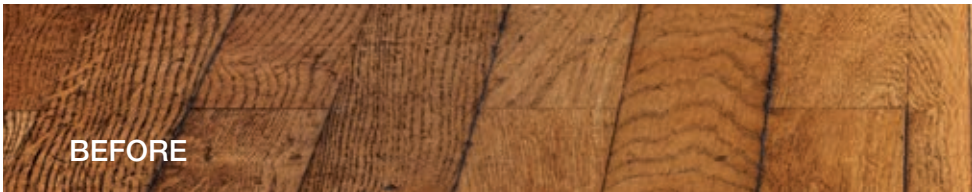

# EFFECTIVE CLEANING **NOW EVEN BETTER**

## BONA DEEP CLEAN SYSTEM – A WORLD FIRST

Heavy traffic and the build-up of dirt and residue can leave floors looking dull, tired and lacklustre. To restore its natural beauty, Bona has developed a uniquely effective deep cleaning system designed specifically for a wide range of floor surfaces.

Based on our effective deep clean treatment program for wood floors, Bona's powerful, yet gentle cleaning concept is now more versatile than ever. The improved Bona Deep Clean System now delivers optimal cleaning for resilient, decking and even concrete surfaces. With extreme power and efficiency, Bona's unique system works deep down, leaving surfaces refreshed and so clean, they are ready for a new layer of protection.

- ✓ EFFECTIVE DEEP CLEAN
- ✓ MORE SURFACES
- ✓ OUTSTANDING PREPARATION

## PREPARATION IS THE KEY TO AN EXCELLENT RESULT

Using the Bona PowerScrubber 2.0 together with specially formulated deep cleaning solution, it reaches deep down into the surface and removes even the toughest dirt, grime and scuff marks. The counter rotating brushes reach deeper into the surface than traditional circular brushing technique.

### PREPARATION

Rotating brushes scrub deep down, delivering powerful, effective cleaning. We recommend use with Bona's specially formulated cleaning liquids, which are suitable for a variety of surfaces

### PROTECTION

With a surface clean and refreshed it's even ready for a new coat of protection.

# FURTHER DEVELOPED FOR VARIOUS SURFACES

## THE POWER TO DO IT ALL

The Bona Deep Clean System offers 5 easy to mount brushes, colour coded for each specific surface. When used with Bona DeepClean W or Bona Remove R detergents, the new, improved Bona PowerScrubber 2.0, allows you to perform a wider range of deep cleaning jobs with ease and excellent results.

From seasonal maintenance for beautiful outdoor decking and concrete surfaces, to refreshing oiled, lacquered or resilient floors prior to a new layer, the Bona Deep Clean System makes it easier than ever.

Solutions	Wood	Decking	Resilient	Tile & Concrete	Stone
DeepClean W	X	X			
Remove R			X		
Orange Brush		X			
Green Brush					X
White Brush	X				X
Red Brush	X		X		
Black Brush				X	

LACQUER

## DEEP LUSTRE

The white roller brush is suitable for oiled and lacquered wood surfaces. For best results, use with Bona DeepClean W.

RESILIENT

## HEALTHY CLEANING

Red brush. This is suitable for resilient surfaces, including Linoleum, PVC, PUR and rubber. Use with Bona Remove R for optimal cleaning.

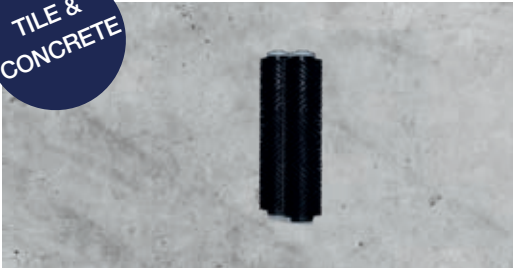

OIL

## EFFECTIVE

The red roller brush is ideal for the deep cleaning of oiled or hard wax oiled wood floors and offers excellent results when used with Bona DeepClean W.

TILE & CONCRETE

## ADAPTIVE BRISTLES

The Black roller brush is specifically for deep cleaning concrete and matt ceramic tiles. Ensure tiles are resistant to coarse brushing. The bristles reach in between tile grouting and the natural characteristics of concrete.

DECKING

## OUTDOOR REVIVAL

The orange roller brush is specifically for profiled decking. For optimal cleaning, use with Bona DeepClean W.

STONE

## GENTLE CARE

The slightly abrasive texture of the green roller brush is ideal for cleaning stone floors. For high gloss stone, the white roller brush is recommended.

# THE NEW BONA POWERSCRUBBER 2.0

The Bona Deep Clean System, featuring the new Bona PowerScrubber 2.0 enables the most effective deep down cleaning, combined with unrivalled versatility and ease. Counter-rotating roller brushes provide deep, effective cleaning while the powerful, yet compact design of Bona PowerScrubber 2.0 delivers even more performance than most auto scrubbers, as well as the benefits of ergonomic operation, set-up and transportation.

*Circular brushing of normal high-pressure cleaners does not clean as well and leaves swirl marks*

*Bona PowerScrubber's effective cleaning goes deep into the wood's fibres*

## COUNTER-ROTATING TECHNIQUE

Bona PowerScrubber 2.0 operates in a counter-rotating motion, as opposed to standard indoor auto scrubbers and outdoor high-pressure cleaners, which both work in a circular motion. The counter-rotating technique provides considerably higher pressure per unit area than circular operation and hence, the result is far better. For outdoor use, its totally even deep cleaning process means none of the swirl marks that often appear when using high-pressure cleaners.

## FEATURES AND IMPROVEMENTS

The new Bona PowerScrubber 2.0 uses the same technology as the original Bona PowerScrubber, updated with a host of new operator-friendly features and a fresh new design.

*'Click-in-place' vertical counter-rotating brushes ensure maximum cleaning efficiency*

*Excellent suction via rubber squeegees removes all liquid residue from the floor*

*Unique design enables the machine to clean closer to walls*

### ✓ CABLE HANGER

*Cable holder on the side keeps the cable out of the way during operation*

### ✓ DISMANTLING MADE EASIER

*Shorter screws with enlarged screw fastenings enable quicker, easier assembly*

### ✓ EASY HANDLE SEPARATION

*Quick cable connector for easy cable separation and handle detachment during transportation.*

### ✓ VISIBLE LIQUID LEVEL

*A transparent water tank cap enables easy monitoring of the water level*

- ✓ MORE POWERFUL THAN MOST AUTO SCRUBBERS
- ✓ GENTLE CLEANING FOR SENSITIVE FLOORS
- ✓ OUTSTANDING PREPARATION
