

Bona Decking System

The professional way of deck revival

Bona[®]

- ✓ Effortless and effective
- ✓ No swirl marks
- ✓ Long-lasting protection

Fast and effective decking revival

An outdoor deck is constantly subjected to different elements of the weather, including harsh sunshine, and heavy rain and snow. Complete cleaning and reviving usually takes a few days of precious time and costs.

Introducing the Bona Decking System – a fast and convenient solution that involves two unique processes of deep cleaning and protection, while keeping environmental sustainability and your health in mind.

Two unique processes to a perfect deck:

1. Effective preparation
2. Lasting protection

Deep cleaning and preparation

The Bona Decking System consists of the innovative Bona PowerScrubber and the special Bona Deep Clean Solution.

The unique system deep cleans your wooden deck along the grains of the wood to ensure that it is completely free of dust and algae, revitalises and prepares the deck for a new layer of lasting protection.

An effective cleaning process before oiling

To ensure an even and smooth end surface, the deck should be thoroughly cleaned and prepared before the oiling process.

The Bona PowerScrubber is a compact, powerful scrubbing machine. Its two counter-rotating cylindrical brushes, together with Bona Deep Clean Solution, remove the toughest dirt and grime from wooden decks with ease.

Unique counter-rotating brushing technique

The brushes of the Bona PowerScrubber are specially developed for maximum effectiveness on wooden surfaces. They rotate in different directions and clean the deck along the grains of the wood, deep into the fibres. The Bona

PowerScrubber, unlike high-pressure patio cleaners, do not leave any swirl marks and guarantee a superb surface ready for oiling.

Bona PowerScrubber's effective cleaning go deep into the wooden fibres.

Circular brushing of normal high-pressure cleaners does not clean as well and leaves swirl marks.

Unique features

The unparalleled effectiveness of this cleaning process is a result of the combination of state-of-the-art technology of

Bona PowerScrubber and the special formulation of Bona Deep Clean Solution.

Click in place vertical counter-rotating brushes.

Bona Deep Clean Solution is specially formulated for wooden surfaces.

Effortless and effective cleaning.

Impressive cleaning result.

Protection

- ✓ Easy to apply
- ✓ Fast-drying
- ✓ Long-lasting protection

A long-lasting and beautiful protection

Bona Decking Oil

Bona Decking Oil keeps outdoor decks as good as new. It seeps deep into the wood and gives robust protection to outdoor wooden decks all year round. It is based on vegetable oils and contains additives that reduce the effects of UV-radiation on the wood.

The new formula greatly enhances the oil's protective properties. Your deck will experience less cracking, increased protection against UV bleaching and prevention of water penetration. Bona Decking Oil is available in 2.5 Litres for all colours and also comes with 10 Litres for Neutral.

Available in 3 colours and Neutral

Easy to work with

Bona Decking Oil's unique formula is made from a concentrated blend of natural vegetable oils, which makes it easy to pour and apply with a simple container and a brush.

Large coverage and rapid drying

The unique formula has a coverage of approximately 20 m² / litre, depending of the type and porosity of the wood. The quick-drying properties allow use of the floor within a day after application.

Prevent cracks and UV bleaching

Excellent penetration properties minimise the amount of surplus oil that has to be removed, at the same time reducing cracks and UV bleaching.

Steps to a beautiful deck

1. Flush deck with clean water from a hose
2. Fill Bona PowerScrubber with Bona Deep Clean Solution mixed with clean water (dilution 1:5)
3. Run Bona PowerScrubber along the grain of the wood
4. When all dirt and algae has been removed, flush the deck again with clean water
5. Leave to dry
6. Coat with Bona Decking Oil using a brush
