Performance for Every Need

Complete range of high performance sanding machines

Machines for every sanding task

Every wooden floor is unique and has its own needs. For 90 years, Bona has been working closely with wood-flooring professionals and craftsmen. That's why we understand what it takes to create beautiful wooden floors.

Today, our experience, expertise and innovation enable us to introduce a full, comprehensive machine range for all your sanding needs. A unique fusion of a strong passion for wooden floors and expert technical knowhow – The Bona Elite Fleet.

When technology meets passion

Bona's unparalleled passion for wooden floors has led us to introduce groundbreaking innovations that have changed the landscape of wood floor treatment.

Today, we have taken this passion and powered it with state-of-the-art technology of Italian machine manufacturers Kunzle and Tasin (K&T). The result is a complete, fully compatible range of high performance sanding machines. Whether it is bare wood sanding, edge sanding, all-purpose sanding for domestic floors, heavy-duty sanding for large public areas, or dust-free sanding, the Bona Elite Fleet helps the wood flooring craftsman handle every sanding challenge with ease and efficiency.

Large public areas

Bona Dust Care System

Powerful Sanding Performance

Large floor areas such as sports arenas, exhibition halls or museums require the most powerful sanding machines for maximum efficiency. The Bona Belt HD, which is equipped with a heavy-duty 2-speed motor and a large drum diameter, is the ideal choice that will handle even the toughest challenges.

Bona 8700 Ceramic Belt

Bona 8700 Ceramic Abrasives are specially developed for coarse sanding of hard lacquers like urea formaldehyde, and is ideal when used in combination with Bona Belt HD.

The extreme high performance is made possible by a grit type containing ceramic aluminium oxide, which results in an aggressiveness for optimal removal.

Enhanced indoor air quality with DCS

Some indoor areas require a high level of air cleanliness and quality, especially private homes, kindergartens, hospitals, museums and galleries. The Bona Dust Care System (DCS) contains all dust within the system and its innovative 2-step cyclonic and filter separation ensures that the air is kept perfectly clean.

Under stairs

Domestic professional

Effective sanding for hard-to-reach areas

Under deep toe kicks, radiators, or even beds and cupboards. These difficult-to-reach areas can be difficult to sand without the proper equipment developed specially for this purpose. The Bona CombiEdge has easily interchangeable arms that provide excellent reach and high manoeuvrability.

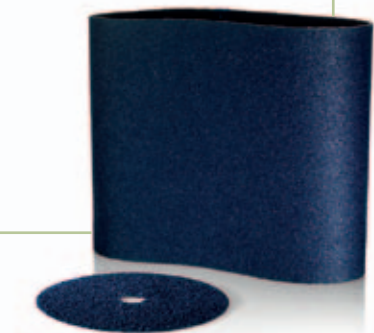

Superior moveability, powerful sanding

When it comes to sanding domestic areas like homes and small offices, it takes an easily manoeuvrable machine that does not compromise on efficiency and smooth results. The Bona Belt Lite is a perfect balance of power and flexibility that is ideal for such jobs. It can also be easily assembled and disassembled to facilitate easy transport and movement.

Bona 8300 Antistatic Zircon Belt

Optimal silicon carbide/zirconium mix on the abrasive surface, when used together with the Bona Belt Lite, ensures easy and effective sanding. Improved antistatic and smooth performance reduces clogging to a minimum, adding square-metre results. Contains self-sharpening material for a longer lifetime.

Semi-professional

Narrow hallways

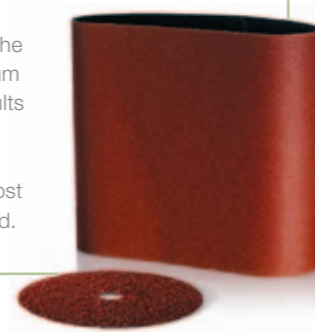

Easy and safe sanding

For the DIY floor owner and professionals dealing with domestic floors or smaller commercial spaces, it is important that sanding is carried out with ease and safety. The Bona Scorpion is compact, easy to use and adheres to the highest safety standards, an ideal tool for these situations.

Bona 8500 Aluminium Oxide Belt

Where the lifetime of the abrasive is not in focus, Bona 8500 is the classic choice in combination with Bona Scorpion. The aluminium oxide in the abrasive delivers smooth and effective sanding results on a wide range of wooden floors.

Together with the cotton cloth backing, 8500 does the job in most floor situations where no extra sanding performance is required.

Unique flexibility and efficiency

In tight spaces where there is limited room for bulky machines or large movements, the sanding machine required should be easily manoeuvrable and portable, yet effective. The direction-free Bona FlexiSand Pro System combines sanding, grinding, cleaning, oiling and polishing all in one machine, ensuring maximum efficiency in constrained spaces.

Bona Power Drive and abrasives

Specially developed as part of the Bona FlexiSand Pro System, the Bona Power Drive delivers direction-free sanding down to bare wood.

Combine with Bona 8700 Ceramic Abrasives, followed by Bona 8300 Antistatic Abrasives for the smoothest end results.

Full range of models within every category

The key to great sanding results lies in the perfect combination of machines and abrasives used. The Bona Elite Fleet is a comprehensive, fully compatible range that is designed to perform in all professional and semi-professional sanding tasks.

Regardless of whether you are a full professional in need of the highest square-metre capacity, a craftsman requiring a flexible solution, or a dedicated semi-pro looking for a safe, reliable result, the Bona Elite Fleet has got an ideal solution within each product category.

Belt sanders

Bona's belt sanders are specially designed for professional sanding of larger floor areas, or for tougher floor surfaces that require higher sanding power. Equipped with a large belt width, ergonomic design and powerful motors, Bona's belt sanders turn every tough sanding situation into a quick and easy one.

Dust-free

Bona's Dust Care System is an innovative, highly effective dust containment and air filter system that can be used with all Bona sanding machines. It prevents any dust from sanding to escape into the surroundings and ensures optimal indoor air quality.

FlexiSand Pro

The FlexiSand Pro System is a highly versatile, multi-purpose sanding system that is powered by a reliable motor and dynamic rotating disc system. Designed for both professionals and semi-professionals to handle different sanding tasks for smaller floor areas, all in one efficient, easy-to-operate machine.

Edge sanders

Bona's range of edge sanders is lightweight, easily manoeuvrable and specially designed for operation in tight spaces to deliver efficient performance for edge sanding. Equipped with small but powerful sanding discs systems and lights that increase visibility in dark areas for maximum ease and effectiveness.

Expansion sanders

Bona's expansion sanders are developed for easy and safe handling on smaller floor areas, without compromise on end results. The compact design of these machines allows the semi-professional craftsman to easily transport and operate them.

Pro Floor Sander

Semi-Pro Floor Sander

Belt sanders

Bona Belt HD by KÜNZLE & TASH

The Bona Belt HD sanding machine makes big jobs seem small. It is a true heavy-duty machine with tremendous power and effectiveness. The unique dual-speed pulley system and infinite drum pressure adjustment guarantee optimum sanding quality regardless of wood species. It can be easily disassembled into three parts, and quickly reassembled. Power, reliability and capability as an effective all-around belt sander.

Application: For sanding of all kinds of wooden and parquet floors, especially effective on big surfaces and heavy-duty applications.

- ✔ Extreme powerful sanding
- ✔ 2-speed for higher efficiency

Bona Belt by KÜNZLE & TASH

The compact design makes the Bona Belt simple to manoeuvre and the specially designed transport cart makes the machine easy to transport in between jobs. Powerful and effective, with two optional drum widths, 200 and 250 mm, makes it a versatile belt machine for many purposes. The machine can be disassembled and reassembled quickly and easily. The Bona Belt has a very efficient vacuum that minimises dust. The easy-start function ensures reliable startup under all conditions.

Application: For sanding all kinds of wooden and parquet floors.

- ✔ Powerful in all situations
- ✔ Adaptive to many needs

Bona Belt Lite by KÜNZLE & TASH

The Bona Belt Lite sanding machine is a compact belt sander able to do great jobs. Designed to be the perfect combination of efficiency, power and agility. It can be easily disassembled into three parts, and quickly reassembled in a few simple steps.

Application: For sanding all kinds of wooden and parquet floors.

- ✔ Superior agility – powerful sanding
- ✔ Optimal balance between weight and drum pressure

Dust-free sanding

Bona DCS 70

The Bona DCS 70 is a powerful tool for completely dust-free sanding. Its two-step cyclonic separation and unique filter design effectively contains dust within the machine. It is highly portable and can be easily connected to your sanding machine, helping you keep your working environment clean and reducing your working time.

Application: For dust-free sanding of all kinds of wooden and parquet floors

- ✔ Dust-free sanding for enhanced indoor air quality
- ✔ 2-step cyclonic separation and unique filter

Bona FlexiSand 1.5 by KUNZLE & TASIN

Bona FlexiSand 1.5 is a powerful and flexible machine that can be equipped with different drive plates for a wide variety of floor preparation jobs. With its powerful 1.5 kW motor and robust construction, it operates smoothly and easily even with heavy jobs. Bona FlexiSand 1.5 is compatible with the Bona Power Drive, a unique drive plate that allows powerful, direction-free sanding down to bare wood.

Application: For sanding all kinds of wooden and parquet floors

- ✔ Versatile machine for all sanding tasks
- ✔ Effective and easy to operate

Bona Power Drive

The innovative Bona Power Drive creates a new dimension for sanding down to bare wood. Four rotating discs sand closely to the walls, which reduces the need for edge sanding. The geared plate as well as the revolving discs ensures increased power for excellent performance in bare wood sanding when used in combination with Bona 8700 Ceramic Abrasive.

- ✔ World's first in direction-free bare wood sanding
- ✔ Revolving discs for greater power

Bona Pad Drive

The Bona Pad Drive is delivered with Bona FlexiSand machines. Bona Pad Drive is a multi-purpose tool that can be used with a pad to oil or stain wooden floors. When a pad and screen are mounted on the Bona Pad Drive, intermediate sanding is easily performed. Oiled surfaces can be polished to increase the lustre of the floor.

- ✔ Buffing and cleaning
- ✔ Intermediate sanding with screens

Bona PCD Disc

Bona PCD Disc contains PCD segments in combination with diamond segments for more aggressive sanding. This makes Bona PCD disc especially effective for removing stubborn residues such as adhesives, carpet foam backing and epoxy. Can be extended with 5 segments.

- ✔ Residue removal – adhesives, carpet foam, epoxy

Bona Multidisc

Bona Multidisc, with six plates (125 mm), takes fine sanding performance to the next level. The fantastically smooth end-results make Bona Multidisc the perfect sanding tool, before staining wooden floors, oiling with pigmented oil or applying finishes.

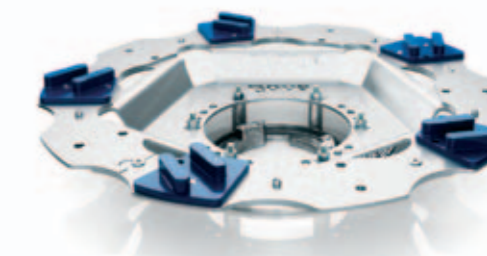

- ✔ Intermediate and fine sanding

Bona Quattro Disc

Bona Quattro Disc is perfect for reducing and smoothing out drum marks and rotational scratches from edger machines. The four grinding plates (150 mm) increase the grinding pressure and enable effective sanding without compromising on smooth end results.

- ✔ Intermediate and fine sanding

Bona Diamond Disc

Bona Diamond Disc is delivered with diamond segments mounted on the plate. They are specially developed for removing the sinter layer from screeds and/or concrete. Can also be used for cleaning/levelling after using PCD disc and can be extended with 5 segments.

- ✔ Smoothing of concrete
- ✔ Grinding of screeds

Bona Edge XL by KUNZLE & TASIN

The longer-armed Bona Edge XL (220 mm) is an extremely powerful edge sander. It can be fitted with 'holed discs' or Velcro-backed discs and picks up dust better than most edge sanders on the market. It is equipped with lamps for better visibility and is easy to operate.

Application: For edge sanding of all kinds of wooden floors and parquet floors

- Extremely powerful edge sanding
- Effective dust pickup

Bona Edge by KUNZLE & TASIN

The more compact Bona Edge is an extremely powerful and easily manoeuvrable edge sander. It can be fitted with 'holed discs' or Velcro-backed discs and picks up dust better than most edge sanders on the market. It is equipped with lamps for better visibility and its shorter sanding arm improves manoeuvrability, which makes the machine easier to control.

Application: For edge sanding of all kinds of wooden floors and parquet floors

- Extremely powerful edge sanding
- High manoeuvrability and well balanced

Bona CombiEdge by KUNZLE & TASIN

The Bona CombiEdge is a lightweight and flexible edge sander. Easily switch between a 120 mm short-arm edger or a 330 mm long-arm sander in just a few simple steps. The 330 mm arm provides excellent reach under deep toe kicks and radiators. The lightweight and highly efficient edge-sanding machine is also fitted with a frontal LED light for better visibility.

Application: For edge sanding of all kinds of wooden floors and parquet floors

- Easy and effective sanding
- Easily switchable arms for sanding under stairs

Bona DualEdge by KUNZLE & TASIN

The Bona DualEdge is a steering sander that is extremely easy to operate due to the counter rotating 100 mm dual-head discs. The discs deliver forgiving sanding action, stability, high speed, and drive the dust towards the dust extractor. Bona DualEdge can be operated linearly as well as in circular motions and has a LED front light for better illumination. The revolutionary concept greatly increases working speed.

Application: For edge sanding of all kinds of wooden floors and parquet floors

- Easy to operate – powerful sanding
- Counter-rotating discs for smoother surface result

Bona Scorpion by KÜNZLE & TASH

The Bona Scorpion expansion drum sanding machine is designed to be a lightweight professional tool that can be easily and very safely operated by any user. Unique electrical power supply safety features such as the “dead man” handle device guarantee safe operation. Bona Scorpion is the perfect combination of functionality, reliability, safety, and ease of use.

Application: For sanding of all kinds of wooden and parquet floors by users of all proficiency levels: professionals, semi-professionals or DIY users

- ✔ Easy and effective sanding
- ✔ Compact and lightweight

Bona Scorpion DCS by KÜNZLE & TASH

Delivering the same performance and ease of operation as the Bona Scorpion, the DCS version comes with the attached Dust Care System which operates on an independent switch, and it can also be connected to other machines. Bona Scorpion DCS is the perfect combination of functionality, reliability, safety, ease of use and dust-free sanding.

Application: For sanding of all kinds of wooden and parquet floors by users of all proficiency levels: professionals, semi-professionals or DIY users

- ✔ Easy and safe sanding with dust-free system
- ✔ Built-in vacuum cleaner

Bona DualEdge by KÜNZLE & TASH

The Bona DualEdge is a steering sander that can be operated linearly as well as in circular motions. It is equipped with counter-rotating 100 mm dual-head discs, which give stability, high speed, and drive the dust towards the dust extractor. Bona DualEdge has a LED front light for better illumination. The revolutionary concept greatly increases working speed.

Application: For edge sanding of all kinds of wooden floors and parquet floors

- ✔ Easy to operate – powerful sanding
- ✔ Counter-rotating discs for smoother surface result
