

Bona Power Drive

Powerful direction-free bare wood sanding

Bona[®]

Powering Up the FlexiSand Pro System

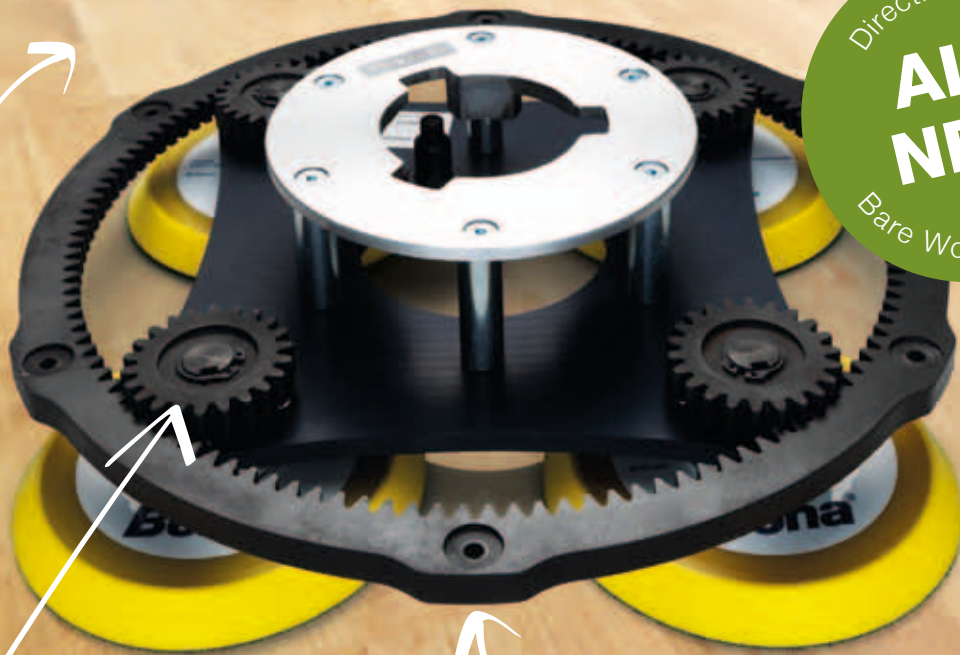

Introducing the latest breakthrough in Bona's versatile FlexiSand Pro System, the Bona Power Drive, designed specifically for sanding down to bare wood.

Bona Power Drive is the world's first in direction-free bare wood sanding. Exclusively made for the Bona FlexiSand 1.5 machine, this truly all-directional disc sanding system delivers exceptional power for even tougher sanding challenges.

A Breakthrough in Sanding

Direction-free sanding

Geared for full power

Direction-free

Bare Wood Sanding

Designed for FlexiSand 1.5

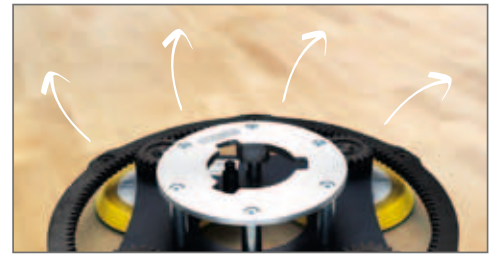

Effective and easy to operate, the Bona Power Drive transforms bare wood sanding into a smooth, simple and manageable process. With this new development, the all-

purpose Bona FlexiSand Pro System is now able to perform even more demanding sanding tasks, while also delivering exceptional results for pre-cleaning, oiling and polishing.

Easy and Safe Bare Wood Sanding

Easy to Operate

Direction-free operation allows the machine to be handled with ease, even in narrow spaces. The vertical rotating discs eliminates the risk of drum marks on the wooden floor and ensures a perfectly flat and smooth surface.

Direction-free sanding for optimum smoothness

Minimises edge sanding

The unique system design allows sanding movement exceptionally close to walls. It leaves only 2-3 cm of surface width that requires manual edge sanding, saving both time and labour.

Works closer to walls and minimises edge sanding

Cog System for Increased Power

The Bona Power Drive's innovative cog system, with its rotating geared-disc arrangement, doubles the sanding revolutions. This delivers significantly more power to the sanding discs for effective bare wood sanding and removal of hard coatings.

Dynamic cog system for sanding power

Designed for easy handling and transport

With large wheels and a compact design, the Bona FlexiSand 1.5 can be easily moved between rooms and carried on stairs. The handle folds down, allowing it to fit into most vehicles.

Large wheels for easy transport

Optimal Abrasives

Bona 8700 Ceramic Abrasives

Highly effective and extremely robust, the Bona 8700 is developed for efficient removal of hard coatings and fast levelling of uneven wood surfaces.

Bona 8300 Antistatic Abrasives

The Bona 8300 is long lasting, heat resistant and clogging impeding, and is ideal for use after sanding with the Bona 8700.

Bona Diamond Abrasives

The Bona Diamond Abrasive delivers the best results even on the toughest wooden floors. Use this to complete the sanding process for ultimate smoothness.

Passion for Wood Floors

Established in 1919, Bona is a world leading innovator with a unique system for wooden floor treatment. Through subsidiaries and distributors we have local presence in more than 50 different countries enabling us to be close to our customers and craftsmen.

Our long commitment and passion for wooden floors enable us to offer lasting, sustainable results that meet all wooden floor needs for professionals and floor owners alike.
