

# Bona Mix&Fill

# Bona Mix&Fill

Mix&Fill is a waterborne joint filler designed to be mixed with sanding dust to a suitable colour. Mix&Fill is used to fill joints up to 2 mm in width and other minor defects in wooden floors. It can be used with all Bona finishes and oils and gives the flooring contractor the possibility to offer a complete waterborne system.

## Key Benefits

- Works with all Bona finishing and oil systems
- Free of solvents
- No unpleasant smell
- Fills the joints, but doesn't slump
- Waterborne, but anti-corrosive
- Dries quickly
- Easy to sand
- Always the right colour of the joint

## Technical Data

Binding agent:	Acrylate dispersion
Solvent:	Water
Drying time:	Approx. 20 minutes at 20°C/55% R.H. – 1 mm joints. This time may be extended where deep or wide joints are filled.
Application rate:	Approx. 1 litre/10 m <sup>2</sup> . This depends upon the quantity/depth of the joints.
Maximum width of the joints:	2 mm
Safety:	Unclassified
Flash point:	Non-flammable
Shelf life:	At least 1 year, from the date of production, in unopened original container
Storage / transport:	The temperature must not fall below +5°C or exceed +25°C during storage and transport.
Pack size:	3 x 5 litres (44 boxes per pallet) 10 x 1 litre (50 boxes per pallet)
