

Bona DualEdge

Technical data sheet

Sanding 

The Bona DualEdge is a steering sander that is extremely easy to operate due to the counter rotating 100 mm dualhead discs. The discs deliver forgiving sanding action, stability, high speed, and drive the dust towards the dust extractor. Bona DualEdge can be operated linearly as well as in circular motions and has a LED front light for better illumination. The revolutionary concept greatly increases working speed. For optimal dust reduction, the Bona DualEdge is compatible with Bona DCS 70 (Bona Dust Containment System).

Application

For edge sanding of all kinds of wooden floors and parquet floors

Key Benefits

- Counter-rotating dual head discs
- Close to corners – less final sanding needed
- Very manoeuvrable
- High sanding and working speed
- Lightweight
- Efficient vacuuming
- Safety operating switch button on the handle
- Dust containment ready

Technical data

Discs:	2, contra-rotating
Disc diameter:	100 mm
Motor power:	1.15 kW
Total weight:	9 kg
Length sanding arm:	155 mm
Disc speed:	4500 rpm
