

Technical Data Sheet

Bona 8600 Green Ceramic abrasive

Ceramic sanding paper

Superior abrasive made of ceramic grits for easy removal of hard lacquers, carpet residue and for flattening highly uneven timber. The unique grit composition delivers exceptional sanding aggressiveness perfectly balanced with gentleness to the wood floor, which results in a smooth surface without fibre ripping and deep scratches.

- Extremely strong and durable
- Faster sanding process
- Perfect for coarse sanding
- Minimizes scratches
- Ability to sand back down to bare wood with Bona Power Drive

Sanding Sequence

Together with the smoother Bona 8300 Series, it creates an optimal system for high sanding performance combined with an excellent surface finish. The ceramic aluminium oxide grits used on the abrasives are close to diamonds in hardness ensuring extremely long-lasting abrasives with maintained aggressiveness. Polyester cloth backing for outstanding strength and dimensional stability. Discs have Velcro backing for simple fitting of abrasives.
